YOUR ATTENDANCE MATTERS

The **International Workshop on HIV Pediatrics** is the only conference focusing on HIV Pediatrics on an international level. By registering and joining us, you get access to a highly interactive and informal setting where you will have the opportunity to interact with experts from the various disciplines involved with daily clinical care for infants and children. The 2-day program will include invited lectures, abstract-driven presentations, panel debates and roundtable discussions. This will be your opportunity to present, discuss, review and evaluate the latest developments.
