

PentaTr@ining presents:

'FUNGAL INFECTIONS IN PAEDIATRICS'

A New Interactive Training Course

Penta
Child Health Research

MRC Centre
for Medical
Mycology

UNIVERSITY OF
EXETER

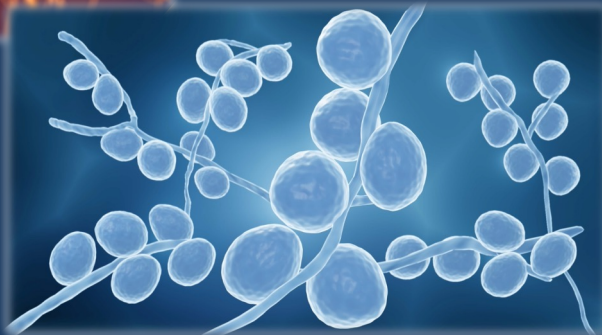

Course registration is now OPEN!!!

The **interactive online course** comprises 6 comprehensive and thought-provoking training modules, a variety of real-life clinical cases for discussion, live webinars and dedicated tutoring from our panel of expert trainers. Building on the **combined expertise** within the EPMyn and Fungal Infections Group and the PentaTr@ining infrastructure, our aim is to deliver an **international, accessible and affordable** training course. The exciting training programme utilizes a **child-centered teaching model** to support ongoing learning needs with **innovative e-learning** methods.

Module topics

1. Fungal infections in children with haematological malignancies
2. HIV/AIDS associated mycoses
3. Invasive candidiasis in neonatal and paediatric intensive care
4. Fungal infections in children with primary immunodeficiencies
5. Neglected fungal diseases in children
6. Skin and mucosal mycoses in children

REGISTRATION FEES

Regular: €250
