WORKSHOP CHAIRS

Natella Rakhmanina
MD, PhD, FAAP, FCP, AAHIVS
Children's National Hospital,
United States

Carlo Giaquinto
MD
PENTA,
Italy

Daniel Kuritzkes
MD
Brigham and Women's Hospital;
Harvard Medical School,
United States

The International Workshop on RSV Infection 2023 will take place on 7 May 2023 in Lisbon, Portugal.

The recent unprecedented surge in RSV cases, coupled with the tripledemic threat of RSV, COVID-19, and influenza, raises concerns regarding the consequent strain on health care systems and highlights a renewed need for education.

Currently, there is a crucial unmet need for knowledge exchange and discussion on how to prevent RSV-associated ALRI morbidity and mortality. The program will focus on the prevention, clinical management, public health challenges, and lessons learned from RSV infections.

ENDORSERS

RSV Infection 2023 is endorsed by these societies and organizations.
Their support and collaboration are key to the success of this workshop!
