AN INNOVATIVE NEW PLATFORM

TB is a priority on the global health agenda. Towards this goal, equitable access to prevention, testing, treatment, and care remains a challenge – but there are exciting developments and innovations on the horizon.

We are pleased to announce the inaugural **Conference on Innovations in Tuberculosis 2024**, taking place from **3 to 5 July 2024 in Kampala, Uganda**.

This exciting new event will establish a platform for the dissemination of clinically relevant innovations and the discussion of their translation and implementation in Africa.

Special focus will be on region-specific epidemic patterns, available prevention, testing and treatment options, and healthcare settings.

Join a community of international and regional experts exchanging knowledge on the latest developments, achievements, and innovations in Tuberculosis - all focused on the African continent.

#TBAFRICAWS

REGISTRATION FEES:

- Fee waivers are available for all Early-Career Investigators and/or Academia from Resource-Limited Settings (RLS) with an accepted abstract.
- All other participants with an accepted abstract will benefit from the Early Live Participation fees (Academia/Industry).
